

## Case Reports in Heart Rhythm: Case Series

[Home](#) > [Journal Details](#)

**Case Reports and Case Series in Cardiology Journal** is publishes case reports, case series, research articles, original article and videos on all aspects of Heart Rhythm. The journal is dedicated to advancing the understanding, diagnosis, and treatment of arrhythmias. Whether you're a healthcare provider, researcher, or patient, our goal is to deliver comprehensive and up-to-date resources on everything from atrial fibrillation to sudden cardiac arrest. Explore our expert content on electrophysiology, innovative therapies, and the future of heart rhythm care. Arrhythmias are disruptions in the normal rhythm of the heart. common arrhythmias include atrial fibrillation (AFib), bradycardia, and supraventricular tachycardia (SVT). Understanding these conditions is the first step in effective management and treatment. Key Topics in Heart Rhythm Care: Atrial Fibrillation (AFib), Ventricular Tachycardia and Ventricular Fibrillation, Sudden Cardiac Arrest, Pacemakers and ICDs.

Case Reports and Case Series in Cardiology Journal welcomes contributions from all over the world in the Society of Cardiology. Submissions of original research and review articles from global sources and has an editorial tracking system to guarantee review quality. The review procedure is handled by the Journal editorial board members; before an admissible contribution is approved by the editor, it must be approved by a minimum of two reviewers. The method allows authors to monitor the status of their paper submissions and, ideally, follow them through to publication. Reviewers can email their feedback to the editor and download the manuscripts. Editors can manage the full process of submission, review, peer review, correction, and publication.
